Robert Hibbs, President of NuTel Technologies, Shares His Telecommunications Expertise at Industry Conference

*Technology Assurance Group Hosts
North America's Leading Providers
At Western Regional Event*

ST. GEORGE, UT — July 27, 2006 — NuTel Technologies, an industry leader in telecommunications, announced today that the company's president, Robert Hibbs, spoke at an industry conference hosted by Technology Assurance Group (TAG), a national organization of independently owned telecommunication companies representing over \$300 million in products and services in both the United States and Canada. Mr. Hibbs shared his valuable knowledge, expertise, and insight on a wide range of business issues impacting telecom providers and the companies they serve. The two day regional conference was held in Los Angeles this month.

Telecom professionals listened to Mr. Hibbs discuss such topics as how to hire the right individuals and create a culture that supports their success, implementing strategies to recognize and reward employees, defining processes to maximize efficiencies to meet customer expectations, and identifying the industry's top three business issues and how overcome them.

"We requested Mr. Hibbs's presence and participation at TAG's Western Regional Conference because of his many years of experience in the telecommunications field and his

success in building one of the premier companies in the industry," said Dale Johnson, president of Technology Assurance Group. "NuTel Technologies is one of our premier member companies and their participation enhanced the knowledge and skill set of everyone in attendance."

"Speaking at the conference gave us a tremendous opportunity to illustrate our expertise in what has historically been a rapidly changing and evolving industry," said Mr. Hibbs. "A key component of our mission is to help our colleagues in other marketplaces become better businesses so they can provide an even greater level of service and innovative telecommunications technology to both mature and emerging companies."

ABOUT NUTEL TECHNOLOGIES, INC.

NuTel Technologies is Southern Utah's most prominent business telephone and data communications company. Locally owned and operated, Robert Hibbs, CEO and founder of NuTel Technologies, had a vision of an organization that would provide communication services to our local businesses without limits. Today, NuTel truly is the "One Call, One Contact" for all of your business telephone and network requirements. Through our strategic partnerships and our flagship manufacturer, NEC, we

bring forth products from a 40+ billion dollar company that is not available from anyone else. NuTel's highly trained and skilled technicians currently hold more than 100 factory certifications, clearly a commitment to excellence that equates to unparalleled support to you through improved customer relations and increased profits.
