Robert Hibbs, President of NuTel Technologies, Presents His Views on the State of the Telecommunications Industry

Leading Providers in the U.S and Canada Listen to Mr. Hibbs at Technology Assurance Group's 2007 National Convention

ST. GEORGE, UT— March 27, 2007 — NuTel Technologies, Inc., a leader in business communications, announced today that the company's president, Robert Hibbs, presented his views on the state of the telecommunications industry during Technology Assurance Group's annual convention. Technology Assurance Group (TAG), a national organization of independently owned telecommunication companies representing over \$350 million in products and services, of which NuTel Technologies is a premier member, held their 2007 TAG National Convention in San Diego in March.

The theme for the convention was "Communicating through Convergence". Telecom professionals from both the United States and Canada listened to Mr. Hibbs's views on the convergence of voice and data and its impact on the way businesses communicate. Mr. Hibbs proactively participated in a number of roundtable discussions covering such topics as increasing customer profitability, utilizing customer relationship management systems, and understanding personality profiles to manage more effectively.

"Mr. Hibbs is very well respected in our industry and it was a privilege to have him address our group of distinguished professionals," said Dale Johnson, president of Technology Assurance Group. "All of our member companies, strategic business partners, and industry analysts greatly benefited from Mr. Hibbs's valuable insight."

"The TAG convention gave us a fantastic opportunity to help our colleagues gain a clearer understanding of the direction of the industry as well as the topic of convergence," said Robert Hibbs, president of NuTel Technologies. "The event also enables us to learn better practices from companies in other geographical locations that we can implement in our business to help our customers improve their profitability as well as give them a competitive advantage."

ABOUT NUTEL TECHNOLOGIES, INC.

NuTel Technologies is Southern Utah's most prominent business telephone and data communications company. Locally owned and operated, Robert Hibbs, CEO and founder of NuTel Technologies, had a vision of an organization that would provide communication services to our local businesses without limits. Today, NuTel truly is the "One Call, One Contact" for all of your business telephone and network requirements.

Through our strategic partnerships and our flagship manufacturer, NEC, we bring forth products from a 40+ billion dollar company that is not available from anyone else. NuTel's highly trained and skilled technicians currently hold more than 100 factory certifications, clearly a commitment to excellence that equates to unparalleled support to you through improved customer relations and increased profits.
